Atlantic Fleet Sailed at Noon Today From Hampton Roads for Tampico, Mexico; Where It Will Arrive Next Tuesday

Vessels Start In Thick Fog and all Have Orders to Make Eleven and a Half Knots Per Hour—All Preparations Completed For The Sailing Of The Louisiana From New York—Great Vessels of Uncle Sam's Navy Donned Their War Paint of Gray Before Sailing For Mexican Waters—Great Activity In Government Navy Yards Equal To That When Admiral Schley's Flying Squadron Left For The Spanish-American War.

(ASSOCIATED PRESS TELEGRAM)  
On board United States Ship Arkansas, Off the Virginia Capes, April 15.—Rear Admiral Badger, commander in chief of the Atlantic fleet sailed for Tampico from Hampton Roads at noon today with the superdreadnaughts Arkansas, Vermont, New Hampshire and New Jersey. In a thick fog that hung over the bay the big ships started off under orders to make eleven and a half knots an hour. That speed would bring them to Tampico in seven days.

Rear Admiral Fiske, chief of the navy bureau of operations who brought Admiral Badger instructions from Washington, was the last man to leave the flagship Arkansas before the squadron steamed out.

(ASSOCIATED PRESS TELEGRAM)  
New York, April 15.—All preparations for the departure of the battleship Louisiana for Tampico were completed early this morning. It was said that the great ship was amply provisioned for a month's cruise. Throughout the night white lights glimmered at the Louisiana's mastsheads, summoning to the ship the men on shore leave. The police assisted in the work of halting every sailor with "Louisiana" on his cap. Captain George Cooper commands the ship. She came here on April 3.

The new superdreadnaught New York, one of the two largest battleships in the world was placed in commission today at the Brooklyn navy yard.

The ceremony was simple. Captain T. S. Rogers received his orders placing him in command of the new battleship, flags were broken out at the bow and stern and the commission pennant was released as the ship's band played the "Star Spangled Banner."

Cheers by the 1,014 officers and men in the crew of the latest addition to the Atlantic fleet were answered by the men on other ships

## LAWYER FOR BECKER HAS LEFT CASE

(ASSOCIATED PRESS TELEGRAM)  
New York, April 15.—District Attorney Charles S. Whitman is determined to bring Former Police Lieutenant to trial for a second time, at an early date, on the charge of having instigated the murder of Herman Rosenthal, the gambler, for the actual killing of whom the four gunmen paid the death penalty on Monday morning. It was expected that his motion before Justice Seabury in the Supreme court today would be opposed by Becker on the ground that his trial attorney was about to retire from the defense and that new counsel would need more time in which to become familiar with the case.

Joseph A. Shay, who became Becker's attorney following his conviction, and who prepared the appeal upon which he gained a new trial, yesterday notified the Becker family of his retirement from the case.

Canton, were encamped at the Tulsa race course and the grounds declared under martial law early today. General Canton is acting under instructions from Governor Lee Cruise. ### You Can If You Will

A few more pictures and the big Booklovers' contest will be a matter of history.

What have you done toward winning one of those fine prizes for yourself? Have you had your friends helping you?

As the close of the contest grows nearer, enthusiasm seems to grow. More people are entering the race as they begin to realize what excellent opportunities there are for winning a beautiful prize.

Did you ever stop to think you're not trying just for one prize? Think of it—136 of 'em, valued at nearly \$4,000.

It's a fair, square opportunity. Many who are working in the Advocate's contest have participated in other booklovers' contests. The rules were practically the same, but the pictures and book titles are different, and those people are going after these prizes with vim.

If you have friends who wish they had started at the beginning, just remind them that they have missed nothing. Tell them if they will just send to the Advocate office for a catalogue containing the 5,000 titles from which the seventy pictures are being chosen, and ask for the back coupons, which may be had for two cents apiece, they will be in line for the very first prize just as surely as those who happened to get an earlier start.

Time's slipping along. Hurry up. Just glance over the list of prizes. Don't they look good? Wouldn't you like to win one? YOU CAN IF YOU WILL. Hurry!

## Comparative Statistics Portend Tremendous Volume of Commerce Which Will Pass Through Canal

(ASSOCIATED PRESS TELEGRAM)

Washington, April 15.—Evidence of the extent of the traffic which may be expected to pass through the Panama canal are given in figures made public today by the department of commerce, which show that in 1913 two small isthmian railways carried \$130,500,000 worth of merchandise brought by vessels from the United States and later shipped to other ports in the United States and foreign countries. Of this trade two-thirds moved westward and the remainder moved eastward.

Only a few American ports participated in the traffic, New York

leading with \$84,000,000, San Francisco was second with \$21,800,000 and Hawaii third with \$18,200,000. Many of the shipments were from New Orleans to ports on the west coast of South America. From San Francisco large shipments went to Germany, France, the Netherlands, England and Belgium.

The Tehuantepec railroad which is 190 miles long carried \$99,500,000 worth of the traffic and the Panama railway, forty miles long carried \$31,000,000. The total amount was double that shipped by the same routes in 1908, one year after the opening of the Tehuantepec line.

## Result of Ohio Miners Vote For Conference With Operators Will Be Known Next Week

(ASSOCIATED PRESS TELEGRAM)

Columbus, April 15.—Whether the 40,000 or more coal miners in Ohio voted yesterday to ratify the agreement of the Chicago conference, to make settlements of the wage scale by states, will not be definitely known before the first of the week, according to a statement made today by G. W. Savage, secretary-treasurer of the Ohio miners organization. He said, however, that it was likely that official information would be received within the next few days, which would be a good barometer of the result of the vote.

For the reason that the referendum held yesterday was national, Mr. Savage explained that the official votes of the various locals would be forwarded to national headquarters of the United Mine Workers at Indianapolis, and there canvassed by tellers who will keep the official result secret until all of the votes are received and counted. This is the reason, he said, that the official vote scarcely will be known before the first of next week.

It is expected, however, that unofficial results of elections held by various locals in Ohio, will be forwarded to state headquarters of the miners here at once, thus showing the sentiment of the Ohio miners. It is planned to hold a joint conference of the miners and operators in Columbus next Tuesday to discuss the wage scale, and for the reason that this conference is dependent upon the result of the vote taken yesterday, everything possible will be done to expedite the learning of the result of the referendum. If it should develop that the miners yesterday opposed a joint conference with the operators, thus failing to ratify the Chicago agreement to make wage scale agreements by states, the conference planned for Tuesday next would have to be called off.

While Secretary Savage would not make a formal prediction as to the outcome of yesterday's referendum, he let it be known that he believes the Chicago agreement would be ratified.

Police Chief at noon Wednesday where he was recovered by department officers. The man was identified by the police as Rosa F. Lann, who took French leave from the police during the night. The police officers in the matter without trial aid in a number of cases in the city have been unable to locate the man.

## WILL NOT MAKE KNOWN THE TERMS OF SETTLEMENT

Attorneys Kibler & Kibler, counsel in the three \$10,000 damage suits settled without trial in common pleas court, Tuesday, declined to make known the terms of settlement. All three suits were brought against the Pennsylvania Railroad company, on behalf of the estate of persons killed by trains in the county. Adjustment of the matters without trial aided in a number of cases in the city have been unable to locate the man.

## Publishing of Indorsements Of Board of Trade's Plan Is Far Reaching In Effect

The extent of the sentiment of cooperation with the plan announced recently by the Board of Trade, could hardly be realized, and when it was presented in concrete form Tuesday by the publication of the indorsements of different organizations, it was a veritable revelation in all quarters. These indorsements spoke for themselves. They expressed the deliberate opinions of different bodies of men. These men again represented every shade of opinion upon other questions, but there appeared a unanimity upon the matter at issue that carried with it the force of conviction, and the influence exerted is certain to be positive and far-reaching.

THE BOARD OF DIRECTORS AND EXECUTIVE COMMITTEE OF THE BOARD OF TRADE HAVE BEEN AT WORK, AND IT HAS BEEN HARD WORK, BUT THESE MEN DID IT CHEERFULLY AND WILLINGLY AS THEY EARLY REALIZED what they sought to accomplish was for the LASTING GOOD OF THE CITY, AND FOR EACH AND EVERY INHABITANT. There has been from

the first no self-interest sought, individuality was not obliterated, but merged in a concerted effort for the common good of all.

While the large number of indorsements received, as well as their unanimity and enthusiasm, were no surprise to the executive committee, it was none the less gratifying, and the members appreciate in the highest degree the deep meaning that underlies them. The men who compose the different organizations are thoughtful, discriminating and thoroughly alive to the situation in which this city now finds itself. They represent almost every line of activity, commercial, industrial, social, benevolent. The primary ends of each differ from that of others but they are ONE IN THE DESIRE TO PROMOTE THE INDUSTRIAL WELFARE OF NEWARK.

The plan proposed by the Board of Trade APPEALED TO THEIR INTELLIGENCE, AND THEY ADOPTED IT AS THEIR OWN, pledging the moral support and co-operation of their organizations. Consider as do the directors and

## MEXICAN EXECUTIVE MUST SALUTE STARS AND STRIPES

Insults to United States Must Be Wiped Out Or Bombardment of Mexican Ports by U. S. Battleships Will Begin—Indignities Have Been Heaped Upon American Citizens With But Little Reparation For Offenses—Official Dispatches of Government of United States to Its Mexico City Embassy Have Been Withheld by Mexican Officials.

(ASSOCIATED PRESS TELEGRAM)  
Washington, April 15.—Huerta will salute the American flag or the Atlantic fleet will seize Vera Cruz and Tampico. What happens afterward depends on Huerta.

That is President Wilson's determination. Leaders in congress with whom he conferred today agreed that there was ample precedent for such action.

Not only the Tampico incident but a long series of indignities offered to the United States to the conspicuous exclusion of other foreign nations represented in Mexico, has convinced the president and advisers that the United States has been singled out for "manifestations of ill will and contempt."

Official dispatches to Charge O'Shaughnessy have been intercepted by the Mexican censor.

A ship's orderly ashore in full uniform in Vera Cruz on business of the United States was arrested and released while a nominal punishment was meted out to the local officials. These hitherto unpunished facts were disclosed today in an official statement.

President Wilson told his advisers he stands for peace but is determined to force Huerta to recognize the honor and dignity of the United States.

While these developments were taking place in Washington the ships of the Atlantic fleet were beginning to move toward Tampico.

The first of the big fighters cleared from Hampton Roads and others in the Atlantic Navy yards were ready to sail before night.

The bluejackets arrested had gone to the Tampico wharf to load gasoline. Two of the men were in the boat. The Mexican soldiers after seizing the men on the wharf boarded the American boat and took the two bluejackets, forcibly, into custody.

"If not actually an act of war," said a senator today, in discussing the incident, "it comes very near it."

The incident will in any event dispose of Huerta's claim that there is no ground for reparation because the men arrested were on Mexican soil, where it is maintained, they had no right to be.

(ASSOCIATED PRESS TELEGRAM)  
Washington, April 15.—While the fighting ships of the Atlantic fleet were turning their bows toward Tampico today to enforce President Wilson's demand on President Huerta for a public salute to the American flag, senators and representatives were summoned to the White House to be informed of all phases of the situation that congress might be prepared for any further steps.

President Wilson told the congressmen that he stood first for peace, but that if Huerta did not comply with the American demands the first step to enforce them would be the seizure of Tampico and Vera Cruz, for which he considers there is ample precedent.

Acting Chairman Shively, of the Senate foreign relations committee, Senator Lodge, the ranking Republican of that committee, Chairman Flood of the House foreign affairs committee and Representative Cooper, the ranking Republican of that committee had an hour's conference with the President.

The following official statement was issued today as representing the views of President Wilson and the administration:

"In discussions in official circles in Washington of the present Mexican situation, the following points have been very much dwelt upon. It has been pointed out that, in considering the present somewhat delicate situation in Mexico, the unpleasant incident at Tampico must not be thought of alone. For some time past the defacto government of Mexico has seemed to think mere apologies sufficient when the rights of American citizens or the dignity of the government of the United States were involved, and has apparently made no attempt at either reparation or the effective correction of the serious derelictions of its civil and military officers."

WHAT IS MEANT BY THIS PICTURE?

My dear Boy  
It gives me the greatest pleasure to know that you regard your dad in the light of a clown and I want you to feel sure that my comings to you are inspired by the friendliest interest in your welfare. I shall be proud of you if I know you are always "on the square". As the man in all your dealings and never try to be a good fellow at some one's else expense. I have written to you in this vein before but I want you to realize that this is good advice. As you know, I have been through the mill, having started as a small dealer in my line years ago, I am here buying space in the Newark Advocate, a newspaper that has been printed regularly since 1820. It is the only paper in Licking county that receives the Associated Press telegraph news service. With best wishes I am  
Your affectionate father,

COUPON NO. 56

Newark Advocate Booklovers' Contest.

Title .....  
Author .....  
My Name .....  
My Address .....  
(56) APRIL 15, 1914. (56)

Clip out your coupons neatly, and fill them out clearly and plainly, remembering that in the event of a tie for any prize between two or more contestants, neatness and clear writing will win the judges' favor. The picture is to be a part of the coupon. Do not detach the coupon from the picture.  
Send no answers whatever to the Advocate until the contest is ended by the publication of Picture No. 70. Any answers received before that time will be destroyed and will not be counted. Read the rules carefully.

Rules of the Booklovers' Contest.

Any person may compete in this contest who lives either in Licking, Delaware, Knox, Coshocton, Muskingum, Perry, Fairfield or Franklin counties, Ohio, except employees of the Advocate or members of their families.  
Answers to the picture must be written upon the coupon blank which will be printed every day with each picture during the seventy publication days the contest will last. Both picture and blank must be clipped from the paper, and the blank properly filled in with the name of book and the author's name together with the name and address of the contestant written clearly and plainly in the space provided: Not more than one person's name may be written on any coupon.

Each picture will represent the title of only one book, but there may be some pictures that suggest the title of several books. For the benefit of contestants, and to allow for this variety of solution, any contestant may give as many as five answers to any picture, at will; but not more than one solution may be written on any coupon. If the contestant gives two answers as likely to include the correct one, two coupons must be used; if three answers, three coupons, and so on.  
In each instance, whether the contestant gives one answer or five answers to any picture, both the picture and coupon must be used for each of the answers; and not more than five answers to any picture will be permitted.  
If any one of the five answers that may be given to any picture is correct, the contestant will be credited for the correct solution and will not have the incorrect ones counted against his or her chances. Prizes will be awarded to every contestant, by the Contest Judges, who sends in the largest number of correct answers upon the smallest number of coupons. Thus, if a contestant gives the correct answers to 70 of the pictures and uses only 70 coupons, that contestant will rate higher in the prize awards than one who uses 140 coupons or any higher number up to 250 for supplying the 70 correct answers.  
If two or more persons, supplying the same number of correct answers, have used the same number of coupons for their answers, the highest rating will be given to the one whose answers are most neatly prepared. In the opinion of the judges.

No contestant will be allowed to submit more than one set of answers, which must include not less than 10 or more than 250 coupons, with accompanying pictures.

Positively no solution may be sent in to the contest Editor until after one of the contests pictures has been printed. Answers in complete form, as just specified above, will then be received in this office, and should be addressed to "Contest Editor", Booklovers' Contest, Advocate, Newark Ohio. The awards will be made strictly according to the correctness of each set of answers, and the correctness shall be

determined by the Finding List, the catalogue issued by us as governing the Booklovers' Contest. This catalogue can be obtained from the Advocate office for 25c (27 cents if by mail), and will include in its 5000 titles every one used in the contest. Awards will be announced in this newspaper after the close of the contest.  
It is not absolutely necessary to send in solutions on blanks clipped from the Advocate, as duplicate pictures may be drawn by the contestant, if he or she so desires, or duplicate blanks may be obtained at the office of the Newark (Ohio) Advocate.

NOTES FROM GAMES PLAYED YESTERDAY

Columbus and Louisville were unable to open the A. A. season at Louisville yesterday. Rain interfered.

Cleveland's A. A. team, formerly the Toledo Mud Hens, met defeat at Indianapolis yesterday.

Johnstone, a former Ohio State league umpire, is on the Association staff. He officiated at Indianapolis yesterday.

Left fielder Magee of the Philadelphia Nationals, hit two home runs in yesterday's opener, aiding materially in the Phillies' 10 to 1 victory over the Giants.

Cincinnati fans are jubilant over the 10 to 1 victory over Chicago yesterday. The game was played in a drizzling rain. Benton allowed Chicago but two hits.

Pittsburgh players traded during the winter to St. Louis, figured largely in the St. Louis victory over Pittsburgh.

President Tener of the National league, who when he is not bossing baseball is governor of Pennsylvania, attended the opener at Brooklyn yesterday. Brooklyn defeated Boston 8 to 2.

Ty Cobb, the world's greatest outfielder, turned defeat into victory yesterday at Detroit when his triple in the thirteenth scored two men. Cobb himself scored the winning run. Detroit had gone 12 innings without a run and a rally by St. Louis in the twelfth frame made things look bad for the tigers.

Walter Johnson, Washington's pitcher got his first shutout yesterday, defeating Boston.

Chicago's rally in the seventh put the Naps out of the running yesterday at Chicago.

The Athletics, world's champions, met defeat at New York yesterday at the hands of the Highlanders.

The two samples of baseball furnished by the Federals so far this season have been good. Yesterday's game at Pittsburgh was well attended.

MAN RELEASED LAST WEEK IS LOCKED UP AGAIN

R. J. Williams, a traveling man, arrested last week on complaint of a local hotel proprietor was arrested again last night on complaint of another hotel manager because of his alleged disorderly conduct at the hotel. He was released about a week ago after being fined and ordered held until his tongue was better controlled. He was charged by Mayor Bigbee with "sassing" the court too much when sentence was pronounced. He will get a hearing Thursday.

Earl Hamilton, Pitcher, Taken by the Federals

When Ray Johnson, president of the American League, learned that George Stovall, manager of the Kansas City team of the Federal League, had taken Earl Hamilton, who was signed to pitch this year for the American League club of St. Louis, he declared war.  
"The American League will stop Hamilton if it takes any toll on the treasury," said Johnson. He signed a most liberal three-year contract with the St. Louis Browns and nothing will be left undone to check Hamilton for his willful violation of the contract.  
Stovall's taking of a player from the St. Louis Americans was done and he has no intention of getting out of the Federal League if he can.

NEW JERSEY PUG - DISPLEASES FANS IN COLUMBUS BOUT

Jack Coyne, New Jersey aspirant to the light weight championship, quit cold in his scheduled round bout with Johnny Griffith of Akron before the Goodale Athletic club in Columbus last night. He landed a broken nose but when the referee, having commission's physician examined the man he pronounced him physically fit to proceed with the bout. That was in the fifth round. In the sixth, Coyne managed to stick his foot in Griffith's groin, knocking him down. When he started for his corner he kept right on going, falling between the ropes. He attempted to make a speech but the hisses and catcalls from the crowd stopped him. Griffith showed the effects of his recent illness and was not up to his usual form but he had no trouble outpointing the New Jersey pug.

George Chip, Pittsburgh claimant of the middleweight championship, who was knocked out by Al McCoy of Brooklyn a week ago, redeemed himself last night by getting a newspaper decision over George Brown of Chicago at Akron. They went the full 12 rounds.

Jack Dillon, Indianapolis fighter, got the decision over killing Levinson at Butte, Mont. The bout went the full 12 rounds.

MARION STILL SHY ON BASEBALL FUND

While the State Journal Tuesday was telling Ohio State league fans that everything was lovely at Marion, the committee in charge of the soliciting of baseball funds there was making its round with gloomy faces. The fund was still incomplete yesterday, in fact it was "several hundred dollars short," according to a Marion paper. President Read was told that there were enough fans in the city to finance the club "if they could be seen," which might be taken to indicate that these fans were keeping under cover and were difficult to find. The work was continued Wednesday. President Read is with the Columbus team at Louisville where the Senators were scheduled to open the A. A. season. The game was called off on account of rain.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's recipe to bring color, lustre and thickness to hair when faded, streaked or gray.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundred-fold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to bring back the natural hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. ## VINCENT ASTOR BELIEVED TO BE OUT OF DANGER

Associated Press Telegram  
New York, April 15.—Vincent Astor had a restful night and was much improved this morning, according to an announcement made at the country home of his fiancée, Miss Helen Huntington. Physicians were in conference during the morning and it was said a formal statement might be issued later.  
Mr. Astor became suddenly ill Monday at the Homeland House, Statebury, N. Y., the home of his fiancée, Miss Helen Huntington. Huntington, daughter of Mr. and Mrs. Robert P. Huntington. Until early yesterday morning Mr. Astor's condition was considered dangerous by the four physicians in attendance.  
Mr. Astor's illness was diagnosed as acute congestion of the right lung resulting from a severe cold which he contracted last week aboard his yacht, the Noma, on a trip to Bristol, R. I., to inspect a yacht being built there as a possible defender of the America's Cup. On Saturday he complained of a cold, but it was not until Monday while visiting his fiancée that symptoms of pneumonia developed.  
Whether plans for the wedding of Mr. Astor and Miss Huntington on April 20 will have to be changed depended, it was announced at the Huntington home today upon the rapidity of the patient's recovery.  
On the death of his father John Jacob Astor, who was one of the bosses of the Titanic disaster two years ago, young Astor came into possession of the greater part of the Astor fortune valued at \$87,000,000. He is fifth in descent from the original John Jacob Astor. Vincent Astor is 23 years old.  
This afternoon the physicians announced that Mr. Astor was doing as well as could be expected under the circumstances. They said they believed he was on the road to recovery provided no complications of a serious nature developed.  
Mr. Taft was in Massachusetts recently, but in view of the approaching primaries he finds it necessary to go back there.

## THE SECRET OF SUCCESS

Obtain Merit Required to Win the People's Confidence

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills almost every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Newark Daily Advocate.

## NUMBER ARRESTED IN CHINA ON A SEDITION CHARGE

(ASSOCIATED PRESS TELEGRAM)

London, April 15.—Chinese government officials in Shanghai today arrested a number of revolutionaries who had come from Japan, according to an exchange telegraph company's dispatch. They were charged with spreading sedition among the regular soldiers. At the same time documents were seized, alleged to be signed by Dr. Sun Yat Sen, former provisional president. They are said to contain instructions for a widespread uprising and the massacre of officials this month.

Knowledge is the gradual discovery that you possess precious little.

## INDIGESTION, GAS OR BAD STOMACH

Each "Pape's Diapiesin" digests 3000 grains food, ending misery in five minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapiesin digests everything, leave nothing to sour and upset you. There never was anything so safely, quickly, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

## AX THROWN BY ROPE STRIKES WOMAN IN HEAD

Mrs. Ira Burkholder in Serious Condition at Home Near Martinsburg as Result of Accident.

Martinsburg, April 15.—Mrs. Ira Burkholder, who resides two miles east of here, is in a serious condition as the result of injuries she sustained Monday afternoon.

Mrs. Burkholder was in the orchard at her home, where her husband and brother were pulling stumps with a rope and block and tackle, and was standing about 30 feet away from the stump upon which the men were working.

An ax handle became entangled in the rope, which, being suddenly pulled taut, threw the ax with great force. The head of the ax struck Mrs. Burkholder over the right ear, and felled her to the ground.

Neither of the men saw Mrs. Burkholder fall, and neither knew she had been injured until her brother found her prostrate form when he went to look for the ax.

Mrs. Burkholder was unconscious all night Monday night, but regained her senses Tuesday morning. Her condition was somewhat improved Wednesday, though it is still serious.

## HOW TO KEEP ACTIVE

When Old Age Overtakes Us.

Mrs. John Widmayer of Jackson, Mich., says: "Although 69 years of age and naturally because of my advanced age, in an enfeebled condition, I can truthfully say that Vinol has done wonders to keep me as active as I am. It is the best medicine to create strength that I ever saw. This spring I was very much run down and worn out but I took Vinol and soon felt stronger and able to work about the house. I can recommend Vinol as a very invigorating tonic."

Should the system get run down—digestive organs weak—the blood thin and sluggish—take Vinol, which is a delicious combination of the medicinal—body-building properties of cods' livers, with the useless grease eliminated and tonic iron added. We regard Vinol as one of the greatest body-builders and strength creators in the world for aged people.

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction. Frank D. Hall, Druggist, Newark O. P. S. If you have any skin trouble try Saxo Salve. We guarantee it.

## SAYS SULPHUR IS SURE TO RELIEVE ITCHING ECZEMA

Get an ounce of bold-sulphur cream and heal skin eruptions right up.

Any breaking out or irritation on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur cream, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clear and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears on the skin.

Those troubled should obtain at any pharmacy an ounce of bold-sulphur cream which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching Eczema, proves very welcome.

(Continued from Page 1.) committee, the true meaning of these various endorsements, taken as a whole, and the magnitude of their import will be more fully appreciated. It will then be seen what a vast field they cover and some conception can be formed of the IRRESISTIBLE FORCE OF CONCERTED ACTION, each taking an individual part, BUT DIRECTED BY A COMMON IMPULSE TOWARD A SINGLE PURPOSE.

The action of the various organizations shows a healthful public mind, and a commendable spirit of right thinking toward civic betterment in all that term implies.

EFFORT HAS BEEN AND WILL BE CONCENTRATED TOWARD THE SINGLE OBJECT THAT HAS BEEN ANNOUNCED. The Board of Trade as a body will not be swayed, a hair's breadth from the direct purpose of industrial development.

IT IS THE BELIEF THAT THIS CAN BEST BE SECURED IN A PERMANENT FORM BY THE LOCATION OF NEW FACTORIES. The

means for getting this condition and the method of raising a factory fund have been explained.

But the ultimate result that is expected to follow is a greater interest in the affairs of our city, on the part of Board of Trade members, which will radiate throughout Newark. A civic pride will be born, conceived in the prosperity of the citizens, who will deem it a privilege to co-operate to secure other ends, somewhat collateral, yet necessary and desirable for the fullness of municipal prosperity, which may hereafter be sought through other agencies, organized and equipped with a special adaptability to secure these ends.

EVERYTHING THAT IS FOR THE GOOD OF NEWARK IS OF COURSE DESIRABLE. The Board of Trade directors earnestly believe that the success of their plan, which is now assured, will result in the creation of a higher citizenship, a desire to grasp each opportunity to advance Newark along every line. They believe that a BETTER CITY will of necessity follow INDUSTRIAL DEVELOPMENT WHICH IS THE BOARD'S PRESENT AND SINGLE OBJECT.

Painters Union.

Whereas Local No. 356 of Painters, Paper Hangers and Decorators after a thorough discussion of the plans of the Newark Board of Trade for the creation of a Factory Fund and the safeguards adopted by said Board for the protection of such fund, believe that the prosperity of Newark will be greatly added to by the judicious use of such a fund, therefore,

Be it resolved by Local No. 356 of Painters, Paper Hangers and Decorators that the plans and aims of the Newark Board of Trade for the creation and proper use of a Factory Fund be unanimously endorsed and that every possible aid be extended to the Newark Board of Trade in its Resolution adopted by unanimous vote.

## Wilson and the Interests

(Ohio State Journal.)

Secretary Bryan, in his statement on tolls exemption, hints at the real animus of the fight against the President on this issue. It was simply another case of big selfish interests fighting for special privilege under a specious plea. The rallying cry this time was patriotism, unwillingness to bow the knee to Great Britain and all that sort of thing, but pure selfishness was at the bottom of the whole campaign for tolls exemption. Certain rich men were seeking a subsidy and trying to fool the president, the congress and the people into thinking that they were actuated only by the highest motives.

It is the same old story—big interests struggling to hold on to their special privileges under false pretenses. When the tariff bill was up, their hearts bled for the honest

American working-man. When it came to the currency measure, they cried out that the poor little country banks would suffer. Beaten on both these issues by the President, they picked up international prestige as a mask for their next operations, and this fight, too, they have as good as lost. The President sees right through them and he does not waver when the pressure is applied.

No one ever had any doubt about Woodrow Wilson's integrity, courage and high purpose. Some sincere men did fear, however, that he was more theorist than practical man and might be misled by the clever and designing. Such fears have vanished with a year's experience of him in office. He seems to be the hardest man to fool that the interests have found in the presidential chair for many a year.

### The City Hall.

The writer has heard more than one person express regret over the dismantling of the old tower on the City Hall building. This old building, and modeled somewhat on the Moorish style, was one of the most unique buildings in the City one of the very few which display any special character, and it is with sincere regret that we are to see some of its characteristic features destroyed. A long time ago the writer heard a man who had a keen eye for beauty, say that the building had tremendous possibilities, for uniqueness and beauty. Newark has few enough buildings in the downtown districts which are not asomely displeasing to the eye and it is with regret that we see the beauty of the old city hall destroyed, even if it does become more utilitarian.

## Wisdom from Washington

Washington, April 13. — [Special.]—Another determined effort is going to be made to put through a national child labor law which will prohibit interstate transportation of goods made by the labor of children under the specified age, probably sixteen years. There has been a number of meetings held recently in Washington having for their object the organization of men and women to bring pressure to bear upon congress to pass this legislation.

There was a time when Senator Beveridge was the most active advocate of such legislation, but since he retired from the senate little or nothing has been done, although quite a number of bills have been introduced. It is said that the matter is going to be put up to Democratic leaders in such a way as to compel action. It is hard to compel action, but there is likely to be considerable agitation of the subject at an early day.

### What Small Cities Escape.

Sometimes it is pleasant to be a small city or town rather than one of the big commercial centers. Of course if a city is big enough to be one of the twelve selected for the federal reserve banks or big enough to have one of the big baseball leagues then there is no complaint. But when cities are almost big enough to have these banks and almost big enough to have big league teams and when other cities get these luxuries then there are heartburnings, disappointments and all sorts of trouble.

### In a Precarious Condition.

Senator Brandegee of Connecticut was telling a group of friends the other day that it is hard for senators and representatives to vote on the canal proposition without being called the tools of the transcontinental railroads or the tools of the coastwise shipping trust. It reminded him of a case around a state legislature several years ago when a lobbyist favoring a certain bill went to a member of the legislature and offered him \$500 to vote for the bill. The member was indignant and threatened to kick the lobbyist downstairs and otherwise do him bodily harm. He turned the corner and met another lobbyist who offered him \$1,000 to vote against the bill. This the member indignantly spurned and said that he was now in a fix because if he voted for the bill it would be claimed he was paid to do so, and if he voted against it the same thing would be claimed, and he determined then and there not to vote at all. Then he met another man who offered him \$1,500 if he would refrain from voting. "They had him in a corner anyway they could fix it," said Brandegee, "and that is about the way it is on this repeal bill."

### Nothing More to Know.

Senator Chamberlain of Oregon wanted to read something into the Record in regard to the Monroe doctrine and Senator Williams of Mississippi objected. "If that article contains any new information about the growth of the Monroe doctrine it is false information," declared Williams. "The old information is correct and everybody knows about it." However that may be, Chamberlain had his article published in the Record just the same.

"He always wants to make a speech and not ask a question when he interrupts." Even with this sharp rejoinder the Michigan Smith continued to insist upon his interruption, and his persistence won.

### Not a Mind Reader.

The vice president continues to delight people in the gallery—much more than he does the senators—with his quaint expressions.

"I ask the chair," said Senator Bristow of Kansas one day with some indignation, "what the senator from Georgia intends to do." And the Kansas man glared through his glasses at Senator Hoke Smith.

"The chair cannot say," mildly said the vice president. "The chair is not a mind reader."

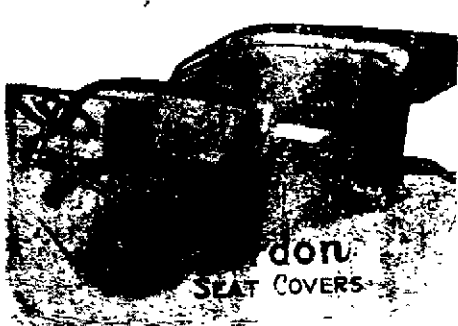

### But They Don't Mingle.

"When the Gambia like was destroyed and the waters of the Atlantic and Pacific mingled together," began Congressman Sherley of Kentucky in a speech on the Panama canal tolls. But they do not mingle. Before they could mingle the waters of either ocean would have to run up or be pumped up about eighty-five feet, and pass three different locks. So it is a figure of speech, it may do to speak of the waters "mingling."

## \$40.00 GORDON SEAT COVERS A BIG PRIZE

Every automobile owner and every prospective owner in Licking county and surrounding counties will keep their eyes on this splendid prize in the Advocate's big "Book-lovers' Contest."

The Advocate purchased from S. E. Forsythe, the well-known Studebaker dealer at Fourth and Church streets, this \$40.00 Auto Gordon Seat Covers outfit. They are for the cushions, backs and doors, with a top slip cover to match, and certainly do add to the appearance of an

automobile and make it more comfortable to ride in. They also prevent wraps and dresses getting streaked and spotted, and often ruined. The material is a double fabric of the best grade and wears like iron; the color does not soil or show the dust, is waterproof and easily cleaned with soap and water. It makes a handsome seat covering. Gordon Seat Covers are fastened with buttons, with a screwstud post, which is screwed into the frame of the seat. It is buttoned around the top with patent button fasteners, holds smooth as a glove.

A splendid line of the Studebaker fours and sixes is now on display as well as a large line of the Maxwell cars. Mr. Forsythe will be glad to show and demonstrate these cars to you at any time. Call at the large new garage at Church and Fourth streets and look them over. First class mechanics are kept to take care of the machines and a full line of supplies is always in readiness.

### Fresh Paint.

It keeps the beauty lover yelling to see a dingy, shabby dwelling, that shrieks aloud for paint; it jars his nerves and racks his spirit, and blasts his eyes, or pretty near it, and makes him sick and faint. Some folks will wear such costly raiment you wonder how they make the payment, or keep their stand off good; and all the while the shacks they live in are piles of dingy wood. I hold that painting is a duty of every man, a debt of beauty, a debt that should be paid; no odds how high you may be flying, you'll stack up cheap if occupying a battered house and frayed. Then let us buy some oil and ochre, and clean up our old house and soaker with paint that hits the spot; red paint is best—it's rich and mellow—but you can use pea-green or yellow upon your humble cot. Some paints are bright and others duller, but any old three-cornered color will beat no paint at all; so let's go painting, all together, and brighten up our dwelling whether it's hut or stately hall.

## On Second Thought

A man's political prospects never look quite so good as they do the day before he decides to become a candidate.

If you wish sympathy you must be an underdog. Nothing excites so much prejudice and adverse criticism as success.

In telling a story a man proceeds by the most direct route. But a woman backs into it.

Up to the time a man is fifty he works for wealth and fame. After that he works for Saturday night.

People are much alike in the respect that they are all pressed to ready money.

A pianist who recently gave a recital in our town wore his hair very long and the musical crowd construed that as additional evidence of his genius. Long hair is no indication of genius. Long hair is advertising.

As a rule, a fool is punished more and oftener than a villain.

The last of the three young and good looking Willoughby girls was married yesterday. The smart and capable Willoughby girl is 38 and hasn't had a suitor since she came home from Wellesley.

Mr. Cardra was not selected as a valuable oarsman for Mr. Ismay's boat; one of the numerous fictions is thus disposed of.

## WHAT TO DO FOR NEURALGIA

The one great symptom of neuralgia is pain, the one great cause is lack of nutrition for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by hot fannel, hot water bags, etc., lulls the inflamed nerves into temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams' Pink Pills will correct the condition that caused it.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little book on "Home Treatment of Nervous Disorders" for the asking.

## -AND THE WORST IS YET TO COME

## A Little Talk On Thrift

By T. D. Mac Gregor.

The Nation's Mainstay.  
Thrift in the individual and thrift in the government are more closely related than is often realized.

Here is a great truth, a truth which it was high time several million people were beginning to realize. They cry for economy for the elimination of waste in government, and they do not practice economy, they do not eliminate waste in their business or private affairs. Only as we as a people become individually more thrifty—that is, more saving, more economical, more conserving—can we expect our councils, our legislatures, our congress to be likewise.

Consider thrift in its relation to the industries of the country.

If everybody should spend his entire income every year, there never would be any capital for investment beyond that which is already invested; no new enterprises could be floated, and improvements of all kinds, public and private, would be at an end. The world's supply of new capital is simply the margin between the world's income and its expenditures.

Nor are the benefits of thrift to be measured wholly in terms of economics. The steadiness, the industry, the sobriety, the respect for property, which are fostered among

thrifty and frugal people are political virtues that make for stability and permanence of government.

The habitual spendthrift is a menace to the community and the nation; the careful citizen, guided by a sense of the true value of property is a safeguard to our institutions. Habits of extravagance tend to make trouble in the family, the community, the nation.

An "American Society for Thrift" has been organized in Chicago with the avowed purpose of "promoting nationally the individual thrift which is the basis of good citizenship and community prosperity." Men of prominence, including Governors of several States, are back of this movement, which aims to advocate a broad and sensible view of economy, pointing out to the people that, as a great English statesman said, "Thrift is not meanness, but management."

The rise in the cost of living, unaccompanied by any great extent by a corresponding increase of individual incomes, is making many an American family right-about-face in the matter of personal and domestic economy.

Is it not quite possible that in good old fashioned thrift may be found the solution of the difficult problem of living up to modern standards under modern conditions?

Dogs annoying neighbors in South Newark required the visit of another officer and a husband who had drawn his pay envelope and gone to a Walnut street resort was the cause of still another complaint. The patrol wagon with Chief Sheridan and an officer visited the resort but failed to find the erring hubby. No arrests were made.

(ASSOCIATED PRESS TELEGRAM)

Norfolk, Va., April 15.—There were lively scenes today on board the warships making ready in Hampton Roads and at the Norfolk navy yard to proceed to Tampico, Mex.

Rear Admiral Fiske, chief of operations, who came down from Washington last night to bear to Rear Admiral Badger formal orders, found every preparation being made for hurried departure when he stepped aboard the flagship Arkansas.

A heavy mist hung over Hampton Roads. There were signs on every ship of their preparedness to get away under hurry orders. Gunners were cleaning the big rifles and stores were being taken aboard. The dispatch boat Yankton, which is to accompany the ships to Tampico occupied a position close by Rear Admiral Badger's flagship, the Arkansas. The torpedo boat destroyers Parker, Cassin, Cummings and Beahm were at anchor close by the battleships Vermont and New Jersey. The battleship New Hampshire was making ready at the Norfolk Navy yard. The Delaware also at the Norfolk navy yard may not be able to get away with the rest of the ships, which are better prepared for an immediate start.

### DANDRUFFY HEADS BECOME HAIRLESS

Scalp Itches—Chokes out the Hair And Prevents Its Growth.

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff. If it will starve your hair and scalp, if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to destroy it entirely. To do this, get about 10 ounces of ordinary liquid arvon. Apply it at night when retiring, enough to moisten the scalp and hair. It is gently with the fingers.

By morning, most of all, of your dandruff will be gone. If you have four or more applications, it will completely dissolve and destroy every single sign and trace of it. You will find, too, that the itching and digging of the scalp and your hair will be lustreous, soft and long. It will feel a hundred times better. Liquid arvon at any drug store is inexpensive and for all you need, no more dandruff. You have a remedy never fails.

### Gaskin, the Quaker Health Teacher, Arrived Last Night, and Is Now At the City Drug Store

Commencing at 9 o'clock this morning, Gaskin, the famous Quaker Health Teacher was at the City Drug Store, Third and Main street, Newark, O. This will be his headquarters during the time he is in our city. All who suffer from any form of stomach, liver, kidneys or blood troubles, also those with catarrh or rheumatism, should see Gaskin at once, as he is here to prove that the Quaker Remedies will cure those troubles. Gaskin said last night:

"Newark people are evidently curious to know my real reason for paying their city a visit. Let me say I came here only to prove one thing, and that is that the Quaker Remedies are doing a remarkable curative work in this country and will do the same here in this city. Just think of Richmond, where we sold over 6,000 bottles of Quaker Extract!

And look at the hundred testimonials that have been published in the papers of that city. The work that is being done for sufferers is really marvelous. Here is another case that will create enthusiasm, I am sure:

"Mr. James Bostwick, living at 372 Abbott street, is a business man of Richmond, and a Mason, respected and well known. About two and a half years ago he began suffering from an attack of supposed indigestion. He would have a tight, uncomfortable feeling after eating; he had dizzy spells and severe headaches; he was sore and stiff when he got up; he belched gas frequently; he had an annoying hacking cough; he was losing in interest in everyday affairs, and had no energy; his sleep was broken, and he was nervous at times."

"Mr. Bostwick got many medicines, and let no stone unturned in his endeavors to find relief in some way,

but all he got was a little occasional relief for a short while. Then he saw the great work I was doing, and he came and had a talk about his case. I urged him to begin taking Quaker Extract, and he finally purchased a treatment of three bottles, and started home with it. In a few days he came back and said: 'I have gotten rid of the whole cause of all my trouble, Mr. Gaskin; it is a tapeworm and it is complete, with the head.' And oh, what a grateful and happy man he was! I have this tapeworm, together with many others, all expelled by people who had taken the Quaker remedies. They are on exhibition at my headquarters, the City Drug Store, Newark, where I am welcoming the public from 9 a. m. till 5 p. m. daily. I don't charge anything for a personal word or two with those who are suffering from stomach, liver, kidneys and blood.

(ASSOCIATED PRESS TELEGRAM)

Juarez, Mex., April 15.—The defeat of the combined federal forces by the rebels at San Pedro de las Colonias state of Coahuila, with federal losses estimated at 2,800 killed and wounded and 700 prisoners, and a rebel loss reported at 650 killed and wounded, it is pointed out here was really the culmination of the battle of Torreón which began on March 21.

When General Velasco, the federal general in chief, retreated from Torreón on the second of this month, his army was practically intact and the retreat enabled him to join the reinforcements which had failed to reach him to Torreón and that evacuation was a successful maneuver.

In any event Velasco after his retreat was much stronger and more dangerous than before, for at San Pedro he had with him the columns of General Javier de Mourre, Benjamin Arreola, Emilio P. Campa, Mariano Ruez, Carlos Garcia Hidalgo and Joaquin Maas, a total of twelve or fourteen thousand troops.

While degouty fighting began almost as soon as the federal left Torreón, General Villa gives the duration of the battle proper as six days, culminating with the flight of the federal last Monday.

The disordered state of affairs in the Torreón region is illustrated by the fact that Villa's report of victory required twenty-four hours to reach General Venustiano Carranza, first chief of the revolution at Chihuahua.

The federals are reported to have retired eastward in the direction of Saltillo and Monterrey, having, it is thought, repaired the railroad in that direction before the battle. The federals destroyed the market building, a hotel and the property of the late President Francisco Madero before retiring.

The success of General Villa and his men in driving back the federal forces sent to reinforce the retreating Torreón garrison under command of the federal general, Velasco, was regarded here as the final struggle for the complete possession of Torreón and the heaving of a way through the canon country toward the capital of the nation. Rebel officials and sympathizers were exultant today when news of the capture of San Pedro was apparently confirmed.

General Villa was again the man of the hour and the pulse of the people here beat plainly that they believed their military leader to be invulnerable.

### INSPECTOR ARRESTS 3 CHINAMEN

A United States Inspector of Immigration with headquarters in Cleveland was in Newark Wednesday and at noon he took into custody three Chinamen who are believed to have been smuggled into this country contrary to the immigration laws. Two of them were apprehended in a West Church street laundry and the other was taken from a West Main street establishment.

Patrolman Gorman assisted in the arrest of the men. While the inspector was questioning the men, one of them slipped away and disappeared, but was captured later in a barn in South Fifth street.

The men refused to talk and the inspector gained no information except that the men claimed to have been born in San Francisco. They had no proof of their assertions and so the officers took them to Zanesville for arraignment before United States Commissioner Frazier at Zanesville.

"Unless the men can prove that they were not smuggled into this country they will be ordered deported."

### Forty-One Persons Received Into the Church Easter Day

Easter was a day long to be remembered by the members of the Second Presbyterian church of this city. The largest crowd that has been in the church for years attended the morning service. The large auditorium was filled to overflowing and the church had to be brought from the Sunday school room. Communion was observed and practically the entire congregation partook of the bread and wine.

During the hour the pastor, Rev. Don Tullis, received forty-one persons into the church. A large number of these were men. These make a total of seventy-six received in the last six months.

The church work is booming and members are enthusiastic in the efforts to develop the various lines of activity. The choir with Miss Florence King directing and presiding at the organ, did exceptional work at both services.

"Imitation is the sincerest form of flattery," quoted the Wise Guy. "Yes, but it doesn't go at the Patent Office, added the Simple Mug.

### Champlin Stock Best Ever Seen Here.

The management of the Auditorium Theater, heralded the coming of a Stock Company, which they claimed to be superior to any such organization ever appearing here. In every phase, it is unusually excellent, and there presentation of James A. Herne's famous play "Shore Acres," was received with enthusiasm by the large audience, that crowded the theater last night.

The production given this wonderful old play, is deserving of praise, and the well balanced cast essayed each role to perfection. The dinner scene, so realistic, where real food is used, and the boat scene, so realistic, are exactly the same as when shown in this city by high priced road companies. The children are delighted, when the toys are displayed, for it is supposed to be the night before Xmas, there are creatures moving however, as in this scene Mr. Champlin himself, has the chance of showing his wonderful acting ability.

Tonight, "Madame X" will be repeated. Tomorrow afternoon, the sensational society crowd play "Miss Jimmy Valentine" and tomorrow night "The Master of the House" which will presented is a high class royalty play.

"The Wrong Mr. President. Spawny, bright, wholesome and is respectfully accurately describes the next offering at the Auditorium Theater for Monday night, April 20. It is entitled "The Wrong Mr. President" and is headed by the cleverest of all colored entertainers, Salem T. Whitely, supported by the noted "Smart Set" Company. The management promises to be one of the most successful of the season.

The offering is a musical comedy of the most unusual kind. It is full of many scenes from contemporary productions in that the interesting, well acted, who are generally well known in the art of temperance and singing. In addition, they have an excellent conception of the art of comedy and make the most of the English speaking word for boys.

curate imitation, has surrounded himself with a cast certain to find immediate acclaim anywhere. Conspicuous are Homer Tutt and Blanche Thompson. They are experienced and capital performers who aid and abet the star towards evitable success. The girls are pretty, the costumes pretentious and elaborate and the other accessories in harmony with past achievements of this invincible organization.

PICKETS ARE BOUND OVER TO GRAND JURY

(ASSOCIATED PRESS TELEGRAM) Portsmouth, O., April 15.—Thirty-five of the pickets arrested by police in the shoe factory district yesterday, waived examination before Mayor Frick and was bound over to the grand jury today, the mayor accepting bonds signed by the defendants themselves.

The mayor served warning to all that if they repeated their alleged offenses, they would be tried under a city ordinance, fined and jailed.

Attorney Nathan Gilliland questioned the mayor's right to issue proclamations against congregating on the streets, holding that under the Ohio code the mayor is not a ministerial officer. Mayor Frick hotly resented this and threatened to deal with Gilliland the same as strikers.

It developed later that 35 shoe strikers who were bound over to the grand jury suddenly changed their minds and refused to sign the blanket bond to appear in common pleas court. It is thought all will refuse to sign.

Mayor Frick has given them until 2:30 p. m. to comply.

## HUERTA

(Continued from Page 1.) been sent him which he had not received.

"It cannot but strike anyone who has watched the course of events in Mexico as significant, that untoward incidents such as these have not occurred in any case where representatives of other governments were concerned, but only in dealings with representatives of the United States and that there has been no occasion for other governments to call attention to such matters or to ask for apologies.

"These repeated offenses against the rights and dignity of the United States, offenses not duplicated with regard to the representatives of other governments have necessarily made the impression that the government of the United States was singled out for manifestations of ill will and contempt.

"The authorities of the state department feel confident that when the seriousness and the cumulative effect of these incidents is made evident to the government of Mexico, that government will see the propriety and the necessity of giving such evidences of its desire to repudiate and correct these things as will be not only satisfactory to the government of the U. S. but also an evidence to the rest of the world as an entire change of attitude.

"There can be no loss to the dignity of the defacto government in Mexico in recognition in the fullest degree the claims of a great sovereign government to its respect."

(ASSOCIATED PRESS TELEGRAM) Washington, April 13.—While the Atlantic fleet with its formidable force of marines and blue jackets was headed for Tampico, today, to compel a salute to the American flag by the Huerta government, Wilson took into his confidence on the situation the Republican and Democratic ranking members of the two congressional committees in charge of the nation's foreign affairs.

Mr. Wilson sent for Senators Shively and Lodge and Representatives Flood and Cooper and revealed to them the incidents following the arrest of a detachment of American bluejackets at Tampico, the subsequent demand by Rear Admiral Mayo for an apology in the form of a salute to the colors and a refusal of the Huerta government to comply as set forth in notes transmitted to Charge O'Shaughnessy.

Mr. Wilson expected his callers to communicate to their colleagues in the House and Senate what he told them so as to pave the way for any step that might require the authorization of congress. The president was ready to inform those who conferred with him of the various precedents in the past under which repatriation had been demanded by the United States and other nations as a redress of wrongs. State department officials had cited to the president that reprisals often had been sought in a "peaceful blockade" of the offending factions and the nation from commerce without open hostility—the landing of marines to police property and even the shelling of a town.

International lawyers are agreed that any of these steps might eventually lead to war and have always pointed out in their treaties that reprisals and measures of retaliation have frequently led to such serious entanglements. The president and his cabinet advisors believe Huerta will yield and that the situation will not become acute.

Official Washington gossiped freely, however, about a peaceful blockade, the landing of marines, a possible bombardment, the seizure of Mexican federal gunboats and armed intervention. The general impression among officials here has been that armed intervention would mean war and would unite the contending forces in Mexico toward a common enemy, but overnight dispatches from Juarez indicated that the constitutionalists probably would simply content themselves with opposing any force that might enter their territory and would not take offensive action. This phase of the situation was regarded as of much importance in that it appeared to limit the issue solely to the United States and the Huerta government. It is known that the naval demonstration which has been ordered to concentrate at Tampico was directed toward the Huerta administration alone as no move has been made by the American army which lies in proximity along the international border to the territory controlled by the constitutionalists.

News of the victory of the Constitutionalists at San Pedro, where reports from Juarez state a huge federal force was vanquished, added an interesting phase to the situation. It was regarded in some quarters as likely to temper the attitude of General Huerta in his refusal to salute the American flag and was considered of paramount influence in pushing the constitutionalist march on Mexico City.

That the Rebel victory and the American demand for a salute would precipitate a crisis at Mexico City was the confident belief of many officials here. No time limit has been set during which the salute must be fired, but General Huerta practically has only until the arrival of the American fleet at Tampico, which will be in about a week, to obey the American demand.

Rear Admiral Fiske, aide for operations in the navy department who went to Hampton Roads today, to advise Rear Admiral Rodger, commander of the Atlantic fleet, of the intimate details of the situation was understood to have conveyed verbal instructions. Rear Admiral Rodger will be allowed much discretion in carrying out the wishes of the Washington government. Secretary Daniels denied that any sealed orders had been sent Rear Admiral Rodger to deliver an ultimatum at which the Rebels might be shelled.

While the navy department is silent as to what Rear Admiral Rodger will be permitted to do, it is understood that if the emergency arises he will have broad latitude to deal with the situation as he sees fit.

Some of the constitutionalists here are hoping that the United States will seize federal gunboats now at
